// OVERPOINT

I began my journey in the creative industry at the age of 18, exploring graphic design and visual effects. I enjoy creating visual stories, experimenting with different design techniques, and bringing ideas to life through motion graphics and digital tools. I value learning new skills and collaborating with teams to deliver designs that are not only visually appealing but also meaningful and effective.

// EDUCATION

// EXPERIENCE

MAY 2025 PRESENT

WEBDOUX PVT. LTD.

Senior graphic designer

At Webdoux, I lead the creative development of digital visuals and videos, with a strong focus on integrating AI-powered design and content generation to produce innovative, high-impact results.

- Conceptualize and design brand visuals, social media creatives, and motion graphics using AI tools to enhance creativity, speed, and precision.
- Generate and edit videos leveraging AI-driven workflows, combining visual storytelling, motion effects, and smart automation to deliver professional-grade outputs.
- Collaborate with marketing and creative teams to craft visually compelling campaigns that align with client objectives and brand identity.
- Experiment with emerging AI tools and technologies, implementing advanced techniques in generative visuals, automated video editing, and content optimization.
- Ensure platform-specific optimization, adapting AI-generated content for social media, advertising, and digital marketing to maximize engagement and reach.
